### Social Justice Tenets Guiding this Course

The content and goals of this course are consistent with three tenets of Catholic social justice teaching that inform the School of Education programs.

- **Subsidiarity:** Educational institutions should be organized and governed as much as possible by the community being served; education should only be controlled at higher levels of society when it cannot be done effectively locally.
- **Dignity and rights of children:** Children possess full human dignity and are bearers of rights which should be recognized and upheld in educational processes.
- **People have a right to an education:** All people have a responsibility, for the good of society, to contribute to and foster education.
