YPL 8206 is a directed reading intended to focus on particular pastoral skills needed by individual students in their own diocese. Such skills include working with parish councils, finance councils, and school boards. Particular students will focus on some of the following: personnel management, CCD classes, RCIA, liturgical planning, funerals, nursing home visits, hospital visits, the Triduum, financial planning, canonical cases, counseling, and interactions between the Diocese and the parish.

Evaluation: Each individual student will be visited by a member or members of the formation team who will evaluate each student’s particular project. During the visit each student will present the development of his project and the steps that he has taken toward completing that task.
