No Book(s). All articles to be read can be found posted on Black Board.

GENERAL DESCRIPTION

EDUC 6311 Issues and Trends in Curriculum & Instruction. This course emphasizes analysis and appraisal of curriculum reform in efforts to study persistent and critical issues in education that affect the teaching/learning process. Opportunities are provided to study current trends and social issues impacting Curriculum & Instruction with reference to various specialties of students enrolled.

Issues and Trends in Curriculum & Instruction is intended to guide students in the process of identifying and analyzing emerging and developing issues in curriculum design, curriculum development, curriculum implementation, and curriculum evaluation. Such curricular issues include but are not limited to state/national academic standards, demographics and diversity, 21st century technology, high stakes testing and assessment, innovative programs, and state and federal legislation. The course includes other issues such as identifying curriculum sources, trends that influence curriculum, the impact of curricular trends on student achievement, and what professionals such as principals, supervisors, curriculum developers, teacher-leaders, and teachers must be aware of to promote and improve student learning.

COURSE TOPICS TO BE DISCUSSED

Social impacts on Curriculum & Instruction
The purpose(s) of curriculum & high stakes testing
Implementing curricular changes
Curriculum and critical thinking
Curriculum and impact on student learning
Curriculum and instructional approaches for diverse school settings
Curriculum, instruction, and contemporary issues
Curriculum assessment and evaluation
Curriculum and technology
Curriculum and demographic changes

SPECIFIC COURSE COMPETENCIES
Based on these competencies, students will work successfully:

COGNITIVE GOALS
EDUC 6311 Issues and Trends in Curriculum & Instruction

Students will:
- read, summarize, and critically analyze journal articles, book chapters, and books related to specific educational topics examined in the course;
- increase their general knowledge of curricular educational issues, including outside factors that affect implementation of curriculum, assessment strategies, education for all, and other recent developments;
- increase their general knowledge of recent educational innovations and alternatives, including (but not limited to) school choice, school finance, multicultural education, technology, social issues, differentiated issues in school systems;
- increase and demonstrate his or her skill in critical evaluation of educational trends; and
- demonstrate preparation for active discussion of educational issues through notes, lists of questions, outside research, careful analysis of reading materials, research papers, etc.

AFFECTIVE GOALS
Students will:
- actively participate in discussions related to educational innovations, issues, and alternatives;
- develop an appreciation for a variety of educational philosophies and agendas;
- recognize and encourage diverse opinions and suggestions;
- work cooperatively and collaboratively with peers in large and small group settings;
- volunteer to share knowledge gained through outside readings relevant to the issues discussed in class;
- collaborate in group activities to develop, maintain, and reinforce peer learning and professional development; and
- understand and appreciate the perspectives of colleagues who teach across various grade levels and content areas.

COURSE OBJECTIVES

On successful completion of this course, you should be able to do the following:

- Identify and analyze the sources of curriculum as a means of understanding and applying emerging trends and initiatives to improve student learning;
- Evaluate current theories and approaches in curriculum and teaching to determine the effectiveness of various instructional methods and classroom practices;
- Compare and contrast learning theories and curriculum practices that promote student learning and achievement;
- Develop a rationale for specific curriculum programs and instructional methods for such audiences as at-risk students, diverse learners, disadvantaged students, the disabled, and others;
- Adopt evaluation and assessment methods and practices that are reliable and valid means of determining the effectiveness of curriculum programs and instructional methods;
- Explain and discuss the emerging policies and regulations that influence curriculum design, development, implementation, assessment, technology and evaluation;
- Construct a personal and professional approach to identifying and analyzing future trends and issues in curriculum; and
- Demonstrate an ability to investigate, analyze, and express yourself professionally in terms of the issues and trends likely to emerge in the field of curriculum.

BLACKBOARD USE

This is a total online delivery course not face to face. All course announcements, documents, assignments, and email communications will be delivered online via Blackboard. Internet access is therefore essential.

COURSE REQUIREMENTS
The following assignments are required to have been accepted as master’s level work in order to receive at least a B- in this course. The professor expects all assignments are submitted when required by the syllabus unless otherwise renegotiated in writing with a student.

A fundamental value in this course is that students want to learn for learning’s sake and for professional development and that students pursue education for its own sake, not only for grades, prestige, or any other external motive.

Attendance, Readings, and Engagement
Students are expected to be present for and participate in all On-line class discussions. All modules/readings are expected to have been completed at the designated time according to your schedule. Students are expected to be engaged in the class and group Black Board conversations/postings. The assignments and the final examination are designed in such a way that students will be able to achieve master’s level work only when they have completed all reading assignments on time and have engaged in the Black Board conversations/postings conversations with other students and the professor in every Learning Module (LM).

Absence
Absence, which means students have not logged in and participated and/or completed the Black Board conversations/postings will result in the renegotiation of this contract. After one absence from Black Board conversations/postings, the student will be administratively withdrawn from the class. Again, if a student is absent once from Black Board conversations/postings week, the student will be administratively dropped from the course. If the time has passed when an administrative withdrawal can take place, unless students with one absence can be withdraw from the class, the grade for the class will be a failure. This is UST policy. The student must therefore keep up on a weekly basis with the course work assigned throughout the entire semester.

Assignments

1. Curriculum Project (40%). a) You will identify an issue in our schools you have seen and would like to explore. This issue can be poverty, technology, gang activity, teacher apathy, high stakes testing, English Language Learners, Special Education students, etc.; b) you will do research on your topic/issue and have at least 7 resources from which you can draw your information. These seven sources will be in the text as well as in your reference page; c) you will then organize your paper by headings and subheadings. Your headings and subheadings are the things you want to bring out and present to me the reader; d) you should address how this issue has an impact on curriculum, on teaching, on learning, on school climate, etc.; e) what trends do you see based on your literature? You will write these trends out; and last f) what recommendations do you make to address this issue and trends and its impact on Curriculum. You are required to use APA format in organizing your paper and for any citations. (Assignment to be emailed to your professor by the stated due date)

2. Journal Curricular Issues (40%). Curricular issues are constantly addressed in the news. Families often see educators as authorities and may ask about topics they see in the popular press. For this project you will browse through books, journals, magazines, newspapers, popular press magazines/media or websites, for articles related to curriculum and instruction in relation to students, theory, practice, program, innovation, testing, evaluation, etc. Select a different topic from that of # 1 above for your paper and find at least two popular press articles on different topic. Write a one-page summary of each and submit with article or provide link where I can access it. Please address the following questions as best you can: What information in the article was important to you? What surprised you? What did you agree with? Disagree? What disturbed you or was troubling? What would you like to learn more about after reading this article? Do you think the information was accurate? How do you know? How does this article relate to what you are learning in this class and/or other classes? Was this information helpful to you as a current or future educator? If so, how? (Assignment to be emailed to your professor by the stated due date)
3. Participation/attendance (20%). Your 10% will be based on how well you participate in BB and the thoughtful contributions made as well as whether you were online to participate. Any absence from BB will result in automatic one letter grade deduction and continues to decline for every absence thereafter. Your 10% will be based on how your participation in BB discussions and contributions made through the asynchronous online course. **For each discussion board, you will be required to post one original reflection in response to the prompt by Wednesday of each week, and 2 responses to posts made by your classmates (total of 3 posts per discussion board).** Waiting until the weekend to make your initial posts will result in a deduction of points.

All assignments will be written in APA style, using Word, double spaced, Times New Roman, and 12-point. Students will submit hard copies of written assignments on the day they are due according to the schedule.

All assignments will receive a numerical grade of 0–100. You will receive a score of 0 for any work not submitted. Your final grade in the course will be a letter grade. Letter grade equivalents for numerical grades are as follows:

**Grading and Point Equivalents**

The Council of Chief State School Officers (CCSSO)
Master’s Level Work is substantively and qualitatively more complex than Bachelors Level Work. It is never “from a book,” for example, demonstrative of having memorized lists or thoughts unchanged from a book. It shows depth, integration, and creativity. Depth requires showing understanding of complexity, comfort with ambiguity, or understanding uncertainty. Master’s Level Work integrates the domain of the course with students’ lived experiences both personal and professional. Creativity is demonstrated when students enhance scenarios or call up lived experiences related to the issues under consideration. Master’s Level Work demonstrates the ability to look within oneself, for example, reflecting on one’s own culture and how it influences one or engaging in meta-cognition regarding the history of oppression, privilege, racism, sexism, etc.

Incompletes are given only at the discretion of the professor for reasons that are serious. Only hospitalization or other equally serious life experiences can postpone a final examination. Again, the final decision rests on the professor of record.

PEDAGOGY

EDUC 6311 Issues & Trends in Curriculum & Instruction uses a Freirian model as its pedagogy. Consequently, the professor believes students and professor have equal responsibility for the success of this course. Our roles are different; our responsibilities are equally significant. In addition, the professor believes life experiences brought to the table in conversation are essential contributions to the development
of the knowledge, abilities, and skills needed to succeed in this course. The role of the professor is to come to class prepared and to facilitate conversation, pace the class, and keep the conversation on topic. The role of students is to come to the table having completed and pondered the readings in order we can have a scholarly conversation with their classmates and professor and can integrate the readings with their professional lives and lived experiences.

LANGUAGE DIVERSITY

The University of Saint Thomas values the speaking of one or more than one or two languages. The Masters programs at the University of Saint Thomas are especially sensitive to issues of language diversity, both on behalf of students for whom English is not their first language and in preparation to work with students for whom English is not their first language. The Tutoring Center is always available to assist students who might need help with written English. In addition, it is recommended that students who are monolingual, bilingual or multilingual bring these gifts to the table in their journey through this course and the Master of Education Program.

RETENTION

For retention in EDUC 6311 Issues & Trends in Curriculum & Instruction and the School of Education at the University of Saint Thomas “candidates must continue to demonstrate academic qualities, personal and social qualities, and physical and mental health indicators of fitness for the profession” (University of Saint Thomas School of Education Catalog 2006-2008, p. 4)

This class functions on the honor system. Students are expected at all times to meet the requirements of the honor system. The professor has the discretion to fail students who violates the honor system.

Integrity is the most important quality for success in this class and in the School of Education at the University of Saint Thomas. Integrity requires students to be authentic and honest in all academic, professional, and affective work. Integrity implies students become familiar with and practice at all times the Codes of Ethics of their professions.

Professionals perform their service in an environment of trust. They have the potential to do great good and great harm. Integrity is absolutely essential for the adequate performance of their profession. Consequently, the professor has the discretion to fail in this course or dismiss from this course students who violate their integrity. Dismissal is not limited to academic dishonesty and plagiarism.

Plagiarism is taking credit for any thought, idea, written or spoken work that does not come from the student. When writing any paper, reference information, websites, books, etc., if a student paraphrases, then the reference must be given. If a student quotes, quotation marks plus reference and page number(s) must be given. There must be a one-to-one correspondence between what is cited in the body of the text and what is placed on the reference page. It is very tempting to copy and paste works from the internet, borrow the work of friends, rephrase another paper that students have written in the past, or change a few phrases here and there. Students are required to meet the standards explained in the APA Manual (2010) regarding avoiding plagiarism.

Copying a paragraph or more and changing words here and there is also plagiarism. Paraphrasing a paragraph or more is also plagiarism. Paraphrasing an idea with proper citing is not plagiarism. To avoid plagiarism close all sources while writing. Master’s Level Work requires integration of information. Plagiarism is a serious offense that will result in students’ failing the course, being dismissed from the School of Education as well as from UST. Plagiarism is a serious violation of integrity. It is not tolerated in the School of Education. Students who engage in plagiarism have demonstrated that they do not have the moral standards necessary to be trusted. Students who engage in plagiarism will be dismissed from the School of Education as well as the University.
AMERICANS WITH DISABILITIES ACT

In accordance with Section 504 of the Federal Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, the professor will make all possible and reasonable adjustments in policies, practices, services, and facilities to ensure equal and optimal educational programs and activities. Whenever a special accommodation is necessary in order to ensure access to full participation by students with disabilities, the student must inform the professor of any disability or needed accommodations.

The University Office for ADA Compliance may ask to seek proof of disability and specify accommodations as requested by students. Students contact the professor immediately if they have needs. All information is confidential. Students can see the professor before or after class or request another time to discuss any matters. Any student with documented special needs requiring academic adjustments or accommodations for enhancing potential for success in this course is requested to speak to me during the first two weeks of class. In addition, students with special needs will contact the Office of Counseling Services for Students with Special Needs by calling 713-525-3162 or 6953. The accommodations will become official when the professor received word in writing from the officer in charge of ADA compliance.
**COURSE OUTLINE - (Subject to change on short notice)**

**These readings are expected to have been completed at the time class begins. These readings include those posted on Blackboard in the Course Documents and keeping up with discussion board postings.**

**NOTE: Each Learning Module will open on Monday and will close on Sunday at 6:00 p.m.**

**Week of 1/19-1/29:**
WEEK 1 – Orientation Module & Learning Module 1 (LM1)
Read: Power and Influence in Organizations & Discussion Board Questions (DQ).

**Week of 1/30-2/5:**
WEEK 2 – Learning Module 2 (LM2)
Read: Political Dimensions of Curriculum Decision Making & Discussion Board Questions (DQ).

**Week of 2/6-2/12:**
WEEK 3 – Learning Module 3 (LM3)
Read: Validity and Accountability in High-Stakes Testing & Discussion Board Questions (DQ).

**Week of 2/13-2/19:**
WEEK 4 – Learning Module 4 (LM4)
Read: The New Demography of America’s Schools: Immigration and the No Child Left Behind Act & Discussion Board Questions (DQ).

**Week of 2/20-2/26:**
WEEK 5 – Learning Module 5 (LM5)
Read: Education and Poverty: Confronting the Evidence & Discussion Board Questions (DQ).

*Journal Curricular Issues Paper Due! Paper due by 6:00 p.m. on 2/26*

**Week of 2/27-3/5:**
WEEK 6 – Learning Module 6 (LM6)
Read: Diversity & Inclusion: Toward a Curriculum for Human Beings & Discussion Board Questions (DQ).

**Week of 3/6-3/12:**
WEEK 7 – Learning Module 7 (LM7)
Read: Using Curriculum Assessment to Strengthen Classroom Practices & Discussion Board Questions (DQ).

**Week of 3/13-3/19:**
WEEK 8 – SPRING BREAK-No class

**Week of 3/20-3/26:**
WEEK 9 – Learning Module 8 (LM8)

**Week of 3/27-4/2:**
WEEK 10 – Learning Module 9 (LM9)
Read: Does Teacher Preparation Matter? Evidence about Teacher Certification, Teach for America, and Teacher Effectiveness & Discussion Board Questions (DQ).

**Week of 4/3-4/9:**
WEEK 11 – Learning Module 10 (LM10)
Read: The Wrong Solution to the Teacher Shortage & Discussion Board Questions (DQ).
Week of 4/10-4/16:
WEEK 12–Learning Module 11 (LM11)
Read: Issues and Trends: Integrating the Curriculum et al. & Discussion Board Questions (DQ).

Week of 4/17-4/23:
WEEK 13–Learning Module 12 (LM12)
Read: Trends that Will Shape the Future of Curriculum & Discussion Board Questions (DQ).

Week of 4/24-4/30:
WEEK 14–Learning Module 13 (LM13)
Read: Global Trends in Education & Discussion Board Questions (DQ).

Week of 5/1-5/7:
WEEK 15
*Curriculum Project Paper Due! Due by 6:00 p.m. on 5/7
