COMSC 4350 Project  
Syllabus  
Spring 2018  

Instructor: Dr. John W. Starner  
Office Hours: MW 1:00 – 3:00  
Office: Math House 102  
Phone: 713/525-3527  
Email: starner@stthom.edu  

This course is being handled as individual instruction. Each student is expected to work on an approved project.  

You will find in Blackboard a Project Proposal and Progress Report form.  

In the first two weeks of the course (or before) complete and present to your instructor a project proposal form.  

Every week Complete and email a progress report.  

Additionally please make frequent visits to my office so we can discuss your progress.  

Three times during the term come to my office and provide a description of progress you have made and problems you are having.  

At the end of the course you will make a presentation or a poster for the Undergraduate Research Symposium.  

At the end of the course present to me a two to three page reflection paper on your project. It should include your progress, discussion of your issues and how you solved them, and any discussion of how you might continue with this project in the future.  

Missing progress reports will lower your grade.  

**Academic Dishonesty**  
It is expected that all students will conduct themselves in an ethical manner at all times. Each student must prepare in his/her own assignment.  

“The penalty for an incident of academic dishonesty is, at the discretion of the professor either a mark of zero for the work in question or the grade of F for the course.” Page 94 of the 1998-2000 Undergraduate Catalog.
