13. MISSION STATEMENT of the Cameron School of Business

We are the University of St. Thomas, the Catholic university in the heart of Houston. We are committed to the Catholic intellectual tradition and the dialogue between faith and reason. By pursuing excellence in teaching, scholarship, and service, we embody and instill in our students the core values of our founders, the Basilian Fathers: goodness, discipline, and knowledge.

We foster engagement in a diverse, collaborative community. As a comprehensive university grounded in the liberal arts, we educate students to think critically, communicate effectively, succeed professionally, and lead ethically.

14. EXPECTATIONS OF ACADEMIC INTEGRITY

Ethical conduct is essential to a community of scholars and students searching for truth. Anything less than total commitment to honesty and honorable conduct undermines the efforts of the entire community. Academic integrity lies at the very heart of any institution of higher learning. In the
Cameron School of Business, students and faculty are expected to commit to a code that exemplifies each individual's honor and integrity. Any conduct that violates this standard and betrays the respect of others is a matter of grave concern and, accordingly, is deemed unacceptable.

This statement of expectations of academic integrity is intended to provide broad guidance for you in matters related to academic integrity or situations where it is lacking, such as academic dishonesty. Academic dishonesty can take many different forms. While it is neither desirable nor possible to list every possible form of academic dishonesty, academic dishonesty generally falls into five categories, as described below. This statement is designed to serve as a guide for the moral behavior of students and faculty. However, when in doubt about the “rightness” of an action — ask! Ultimately, both students and faculty are responsible for ensuring the academic integrity of the University of St. Thomas. Students who commit acts of dishonesty expose themselves to appropriate sanctions as outlined in official University policies and procedures.

A) **Plagiarism**: the appropriation or imitation of the language, ideas, and thoughts of another author and the representation of them as one’s original work.

B) **Cheating**: copying another student’s work on an examination, quiz, or in-class exercise, knowingly permitting another student to copy one’s paper on an examination, quiz, or in-class exercise, using unauthorized books, notes, or devices while taking an examination, quiz, or in-class exercise, violating any clearly expressed stipulation applied to homework or “take-home” exams, or gaining unauthorized access to test papers before or after an examination. This includes tests and exams administered in previous terms if such access is specifically prohibited by the instructor.

C) **Fabrication**: falsely reporting work as having been done, or deliberately falsifying results/outcomes.

D) **Deception**: knowingly making a false statement to any faculty member or academic official of the university in regard to an academic matter, or making a deliberately false statement regarding a violation of the provisions of this statement of academic integrity.

E) **Facilitating Dishonesty**: knowingly doing work for another person to turn in as his or her own, or permitting one’s work to be used in this manner.
